

① The icon of "OpenVPN GUI" can be done on your desktop, and double-click it, please.

② Please access the following by using web browser.  
<https://ictmax.jp/~ID/openvpn/>  
※ `ID` and `Pass` are own things.  
※ `③` is very easy when opening as Web folder.

③ Please open the following folder by the Explorer of desktop.  
<C:\Program Files\OpenVPN\config>  
Please preserve all file of `②` in the above-mentioned folder.

④ There is an icon of OpenVPN in lower right. Then, please press right-clicking ⇒ Connect.  
Connected screen opens, and Pass is asked. If a lower right icon greens after inputting own `Pass`, it is a call connected.
